

Professional therapy, made easier.

BetterHelp removes the traditional barriers to therapy to give everyone access to affordable and convenient mental health care — 100% online.

What is BetterHelp?

BetterHelp was founded in 2013 to remove the traditional barriers to therapy and make mental health care more accessible to everyone. Today, it is the world's largest online therapy service — providing professional, affordable, and personalized therapy in a convenient online format. BetterHelp's network of over 30,000 licensed therapists has helped millions of people take ownership of their mental health and work towards their personal goals.

Why BetterHelp?

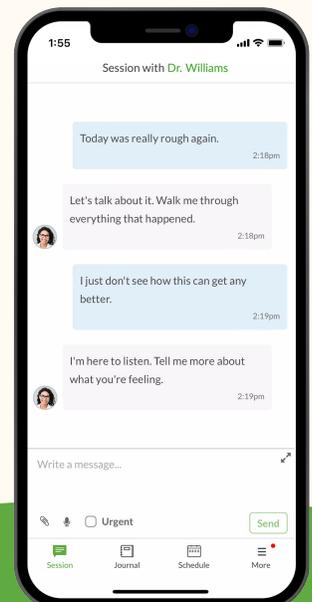

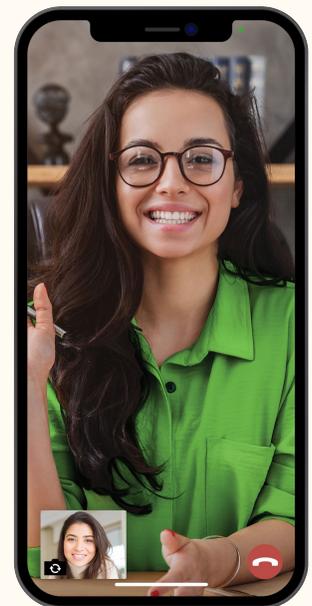

BetterHelp makes it easy for every member of your organization to match with a licensed therapist according to their needs and preferences – and access quality mental health care on a schedule that works for them.
