

2024 Network Update

FMOLHS continues to align its health plan offerings and network to support FMOLHS network integrity. The FMOLHS customized network (EPO and PPO Tier 1 and 2) is designed to drive care to providers employed by the health system or who are partners of the health system. By using providers and facilities in the FMOLHS customized network, we are helping to preserve the future of our organization and our mission. These providers are aligned with our high quality of care standards and are clinically integrated with our electronic medical record system allowing sharing of data between providers. When employed providers or partners of the health system change, we must adjust the FMOLHS Health Plan network accordingly. **All of the providers listed below will no longer participate in FMOLHS customized network (EPO Network and PPO Tier 1 and Tier 2 Network) effective January 1, 2024, in order to support FMOLHS network integrity.**

Today, services provided by any of the providers listed above are considered in network under the EPO Plan and Tier 2 under the PPO and HDHSA Plan. However, as of **January 1, 2024**, they will be out of network (no coverage) under the EPO Plan and will be Tier 3 coverage for the PPO/HDHSA Plans.

We encourage you to begin reviewing the FMOLHS network in preparation to choose another provider in the network. Please remember to always verify the network status of your provider with Blue Cross Blue Shield before accessing services.

Helpful search tip: Doctors may be listed by group name rather than their individual name. To locate your doctor more easily, search by location and then by specialty.

Acadiana
